

KIDaccount Parent App

The **KIDaccount Parent App** offers a secure and convenient way for parents and caregivers to stay informed about their child's school dismissal. Manage dismissal and pick-up procedures with ease using our digital solution. This app integrates seamlessly with the established KIDaccount system used in schools nationwide, enhancing both safety and efficiency.

Key Features & How to Get Started

Digital ID Management

Replace physical ID cards with secure digital IDs. Control who can pick up your child by sharing access to the digital ID with your student's approved contacts right from your mobile device.

Real-Time Notifications & Daily Dismissal Updates

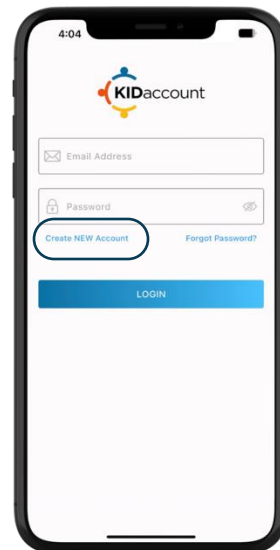

Receive confirmation alerts about any changes to your child's dismissal schedule directly on your phone, ensuring you always stay up to date. You will also get detailed daily notifications about when your child was dismissed, by whom, and by which method—carline, bus, walking home, or after-school programs.

Important Data Needed

It is critical to have updated email and cell phone number on file with your school. These items are needed to be able to create an account on the app that is connected to your child. Secondary contacts must have a cell phone number on file to access the app.

How to Get Started

You may not have access to your school's KIDaccount Parent App until **2-3 days before** your school startup. Once downloaded, select "Create NEW Account" as seen in the graphic to the right. It's that easy!

Download the KIDaccount Parent App

You can download the KIDaccount Parent App from both the App Store and Google Play store by searching "KIDaccount" or by scanning the respective QR codes below. An instructional video can be found at KIDaccount.com/parent-app-help
